Dear Dr Chachavalpongpun

Thank you for your email and letter of 19 November 2022.

We note your concerns. The Department does not comment on individual cases.

The Australian Government will continue to act decisively to protect the community from the risk of harm posed by individuals who choose to engage in criminal activity or behaviour of concern, including visa cancellation or refusal where appropriate.

All non-citizens who wish to enter or remain in Australia must satisfy the requirements of the Migration Act 1958 (the Act) and Migration Regulations 1994, including identity, health, security and character requirements.

Further information regarding the character requirements is available at:
